Speaker 1

Yeovil College provides teaching of broadcasting and media and from that it is proposed to run a Community radio for South Somerset District area. The community radio would be a way of connecting all the parishes in the South Somerset District.

Costs to set up the station include erecting a mast and fitting out premises.

The frequency for radio Ninesprings will be 104.5 and a good signal will be received in Ilminster. It is due to commence transmitting on 1st August 2018.

Support of Town and Parish Councils is vital so SSDC can see support for the station.

Young people including those living in Ilminster would be given the opportunity to work and train in broadcasting.

Future running costs to be funded by Yeovil College, SSDC and advertising.

Local items which could be covered by the station could include Ilminster Literacy Festival and the Housing Needs Assessment Survey.
