

Snake

3.2m Width for compact tractors

Snake is the accumulation of over 30 years of Trimax innovation, engineering and customer insight. Designed for sports turf and golf courses, Snake has the unique ability to transform a variety of conditions into an even carpet of green.

We've seamlessly combined our world class cut quality and have added articulation capabilities never seen before on a Trimax mower.

We believe that what we've created is the best sports turf rotary mower in the world. Built for agility, as tough as nails and an incredibly versatile mower, the Trimax Snake won't fail to impress. Snake owners benefit from a proven 3 year warranty and genuine Trimax support.

As with all our products, when you buy a Trimax, you are part of the Trimax family. This means not only are you well supported by our incredible dealer network and experienced staff, but you have a direct line to the family owned company for usage insights, feedback and any questions you may have.

Talk to us today about the capabilities of Snake in your environment.

Snake

Cutting Width	3234mm (127")
Overall Width	3372mm (133")
Width (transport mode)	2050mm (81")
Cut Height Range	10-90mm (0.4"-3.5")
Height (transport mode)	1860mm (73")
No. of Blade Spindles	9
Approx. Weight	1240kg
Minimum Tractor Size	35hp
Warranty (Years)	3
Application	Municipality Horticulture Agriculture Turf Farm School Lifestyle Recreators Sports Field Golf Aviation

Features

3 YEAR WARRANTY

We aim to build mowers that last and we back this up by a 3 year warranty which also includes the spindles and gearboxes. Our robust design coupled with our experienced service and support network ensure minimum downtime and more productivity.

KERB JUMP

The Kerb Jump, also known as 'Cross Cut', enables all three mower decks to be raised just off the ground without disengaging the PTO. This improves productivity by allowing the mower to traverse gravel driveways or paths and quickly turn at headlands.

ZERO TURN

Continuous cutting while turning for areas such as headlands, tight spaces and around trees.

LAZERBLADEZ™

Snake is fitted with Trimax LazerBladez™, a blade system with a carefully engineered centre of gravity and distinctive tilt-forward blade design unique to Trimax. Utilising the LazerBladez™ full length cutting edge, Snake produces a clean finish even when mowing at high ground speeds. LazerBladez™ are made with high grade alloy steel providing a significant increase in blade and bolt life for added safety and lower operating costs.

FULL WIDTH ROLLERS

Full width rollers minimises scalping in extreme undulating conditions and allows mowing over kerbsides, bunkers and potholes without blade strike.

UP TO 50HR PTO GREASE

With the use of our new FLEX CONE, we can prevent dust and external agents getting trapped in the bearings, also minimising the risk of PTO's coming in contact with the rotating parts of the drives. This greatly reduces the amount of greasing required, extending intervals out to as much as 50 hours.

Options

ROADKIT

The road kit option adds mudguards to the wheels and includes LED tail light clusters.

REMOTE UNLOCK

The remote unlock option replaces the standard transport lock release rope with an electric actuator. This is operated by a push-button on the tractor.
