Dear Joy,

Re: Public Access Defibrillator

As I am sure you know a group of individuals came together via the Ilminster Facebook page to raise the funds for two public access defibrillators.

After a very successful fund raising campaign two public access defibrillators have been leased from South Western Ambulance Service NHS Foundation Trust, who will provide training, services and parts over a four-year period. They now need to be installed on the outside of two building; one to be located in the town centre and the other in the recreation area.

The defibrillator group has approached the Ilminster Sports Club to ask if one of the public access defibrillators can be placed on the Archie Gooch Pavilion. The advice from South Western Ambulance Service NHS Foundation Trust is that the preferred location would be so the unit is visible as you drive into the car park area.

Craig Stuckey of MECC has offer install the units at no charge.

The directors of Ilminster Sports Club are happy to agree to this request but note that the lease states we need permission from the Town Council before securing anything to the outside of the building.

Therefore I am writing to request permission from Ilminster Town Council for permission to put one of the public access defibrillators on the outside of the Archie Gooch Pavilion

Yours sincerely

Ms EJ Taylor
